

High-Acuity Urgent Care Model Overview

Acute Medical Management, Inc. (AMM) is redefining the urgent care market for the future of health care. AMM brings more than 20 years' experience partnering with health care operators to deliver a differentiated urgent care model. Expanding access from everyday standard urgent care needs to higher-acuity cases traditionally only treated in emergency departments. Our **“one-stop” solution** for the community results in 98% of our patients receiving all necessary care and going directly home. We deliver clinical care in less than half the time and a fraction of the cost versus the ED.

Our model provides on-site comprehensive patient centric care as a true alternative to the ED, with...

- **Board-Certified EM Physicians** and EM/critical care RN's /staff
- **Licensed CLIA Regulated Laboratory** – performing up to and including moderately complex testing
- **Advanced Imaging - CT Scan, X-ray, Ultrasound**
- **Cardiac Monitoring & Observational Care**
- **ED – Level Procedures and IV infusion**

Providing... Emergency Department level care with Urgent Care convenience!

- Less out-of-pocket expense compared to ED
- Faster Lab and Imaging Results compared to ED
- Faster time from arrival to discharge for patients compared to ED
- Improved overall satisfaction results compared to an average ED

Our high-acuity urgent care sites are designed to treat all the patients a "standard" urgent care can and all the patients they *cannot*!

We provide care for a broader spectrum of urgent and emergency-level acute cases in a community setting by offering the *proper point of service*. Thus, ensuring a timely and cost effective, positive patient centric experience.

Just as AMM's high acuity urgent care model is a “one-stop” solution for our patients, Acute Medical Management is also a “one-stop” solution for our partners who are looking to transform their position in the ambulatory marketplace. We are innovating health care through unmatched collaboration with health care operators through joint venture and commercial agreements to redefine community-based urgent and acute care.

Acute Medical Management has a proven high-acuity urgent care model built to solve growth, access and margin challenges by accelerating ambulatory expansion into high growth community markets. Please reach out to us on the Contact page to open lines of communication.
